Tafadzwa Isaac Chaipa

Software Developer

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer with 5+ years of experience designing and delivering scalable web applications, ERP systems, and e-commerce platforms. Proven ability to reduce operational costs by 40% and cut manual workloads by 60% through smart automation. Proficient across the full stack — from React and Flutter front-ends to Node.js, Django, and RESTful API back-ends — with a track record of collaborating across teams to ship impactful, production-ready software.

WORK EXPERIENCE

Web Developer

May 2023 – Jan 2026

Vostertech Consultancy

- Architected and delivered a full consultancy ERP system, cutting operational costs by 40% and becoming the company's core business management platform.
- Collaborated with cross-functional stakeholders to translate departmental requirements into a unified application system and public-facing website.
- Led automation and data migration initiatives that reduced manual workload by 60%, freeing staff to focus on higher-value activities.
- Provided ongoing helpdesk and end-user support, ensuring high system adoption and satisfaction.

Software Developer

Dec 2021 – Mar 2023

Chitosystems

- Designed and built an end-to-end online ordering system for the fast-food sector, handling menu management, orders, and payment integration.
- Co-developed CollaboMe, an online collaboration platform for artists, including user profiles, project spaces, and real-time communication features.
- Contributed to an e-learning platform for primary and secondary schools, enabling digital content delivery and student progress tracking.
- Conducted system training sessions for end users and managed ongoing system administration duties.

IT Support Officer (Internship)

Aug 2019 – Dec 2020

Seke Teachers' College

- Managed hardware/software troubleshooting, OS installations, and network configuration across the campus.
- Administered databases and servers, ensuring high availability and data integrity.
- Delivered ICT lessons and training workshops to staff and students.

TECHNICAL SKILLS
